

# BAT PLUSHIE

INTERMEDIATE

TRICK  
OR  
TREAT

## MATERIALS

- colored felt (e.g. black and orange)
- needle and thread
- stuffing material (old sock,...)

### Optional

- Catit Catnip Spray

## TECHNIQUES

Running Stitch  
Blanket Stitch

This bat plushie is adorably evil, especially when sprayed with catnip. Enjoy!

# BAT PLUSHIE

~TIP~

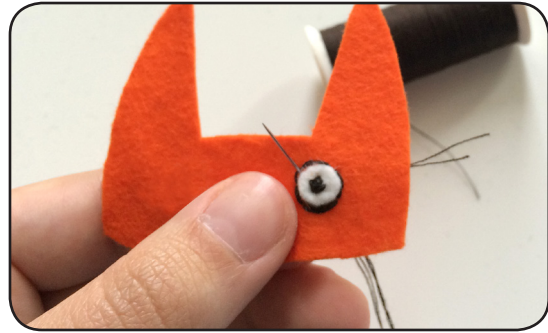

Save your fabric scraps, they are great stuffing material.

## INSTRUCTIONS

- 1 Use the templates provided to cut out the different felt shapes. You need two of each.

- 2 Attach the eye with a running stitch. Circle the shape twice. Create the pupil with multiple stitches at the center. Repeat for the other eye.

- 3 Next, sew on the mouth in similar fashion. Fill in the teeth using multiple stitches of white thread. If you have trouble positioning the mouth, try stitching on top of the paper template.

- 4 Place the head on top of the body with a slight overlap and sew them together. Repeat for the other half of the body.

# BAT PLUSHIE

~TIP~

Give the plushie a fresh spritz of catnip once the scent has faded.

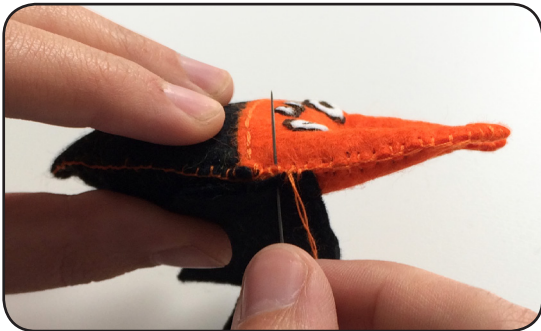

## INSTRUCTIONS

- 5 Join both body shapes with a blanket stitch. Start at the top, leaving the bottom half open to stuff through.

- 6 Use a skewer or crochet hook to stuff the ears. Sew the rest of the body closed, stuffing as you go.

- 7 Finish by sewing on both wings.

- 8 Coat the bat plushie with catnip spray for extra happy results.

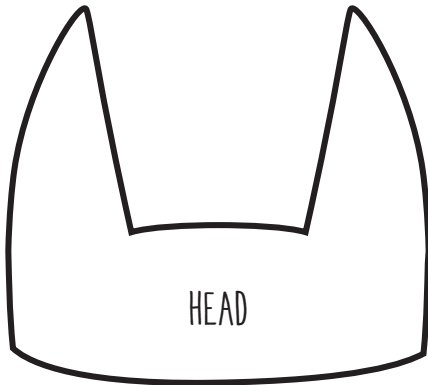

YAY! DONE!
